

Acoustic Experts

On Demand

FFT Acoustic Experts Help You

- Transfer skills and expertise in acoustic modeling through **advanced training sessions**
- Improve your simulation process with **model reviews**, optimization, and recommendations
- Update existing models and processes with the latest **Actran release** features
- Handle **peak loads** and meet important deadlines by outsourcing parts of your projects
- **Optimize your hardware** and software environment for increased efficiency

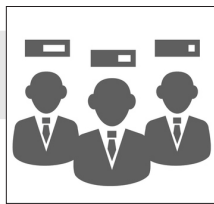

Acoustic Experts on Demand is a flexible service package designed to take your acoustic simulation mastery to the next level

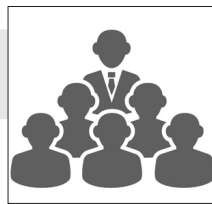

How Does it Work?

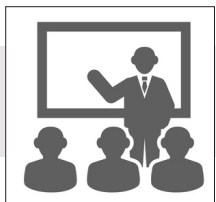

You order a number of expert hours

FFT assigns the most appropriate expert to help you

We help you through

Advanced trainings

On-site work sessions

Interactive web-meetings

On-demand engineering services
